New Zealand	71
Philippines	72
Raspberries: United Kingdom	72
Strawberries: United Kingdom ...	72

Starting with January 1954, "other countries" includes, in addition to shipments to non-listed countries, those shipments to listed countries that are valued at less than \$500 each when the number of such shipments to a country in a given month is few. This change results from sampling procedures adopted by the Bureau of the Census.

Import table on Germany relate to East and West Germany for the prewar period; 1950-54, Western Germany only.

SOURCE: United States trade statistics compiled from the Bureau of the Census. Trade in foreign countries compiled from official sources.

Converted to cases of 24-2½'s except where specified. Net weight of 43.5 pounds per case of 24-2½'s.

This compilation is not intended as a replacement for the source material and is prepared as a ready reference for those in export trade.
